

KENYA COFFEE SCHOOL

TRAINING ALL MATTERS COFFEE

Empowering Coffee. Building Skills. Driving Value.

ABOUT KENYA COFFEE SCHOOL

Kenya Coffee School (KCS) is a leading coffee education, technical training, and coffee value chain development institution dedicated to building professional capacity across Africa's coffee industry. We provide industry-focused training, consultancy, machinery sourcing, quality assurance, coffee processing solutions, and entrepreneurship support.

Our mission is to empower farmers, cooperatives, processors, roasters, baristas, exporters, entrepreneurs, and coffee businesses through practical education and access to modern coffee technologies.

OUR VISION

To become Africa's leading centre of excellence in coffee education, innovation, machinery solutions, and sustainable coffee enterprise development.

OUR MISSION

To transform the coffee industry through quality education, modern technology, professional training, and practical business solutions that increase productivity, quality, and profitability.

OUR VALUE PROPOSITION

"Beyond supplying coffee machinery, Kenya Coffee School develops the technical capacity required to operate, maintain, and optimize coffee processing equipment. We combine equipment sourcing with professional operator training, ensuring every investment delivers improved quality, efficiency, and long-term value across the coffee value chain."

WHAT WE DO

1. Coffee Skills Training

We provide practical and professional training covering critical competencies across the specialty coffee landscape:

Specialty Coffee

Barista Skills

Coffee Roasting

Coffee Processing

Coffee Quality Grading

Coffee Cupping

Coffee Brewing

Coffee Business Management

Coffee Farm Management

Coffee Value Addition

2. Coffee Machinery Sourcing & Sales

Kenya Coffee School assists clients in identifying, sourcing, supplying, and commissioning coffee machinery suitable for different production capacities. We work with cooperatives, estates, factories, exporters, investors, SMEs, and government projects to recommend equipment based on production needs and budget.

- Coffee Hullers
- Coffee Pulpers
- Coffee Dryers
- Coffee Grading Screens
- Density Separators
- Destoners

- Colour Sorters
 - Coffee Roasters
 - Coffee Grinders
 - Coffee Packaging Machines
- Moisture Meters
 - Laboratory Equipment
 - Coffee Processing Lines

3. Technical Installation & Commissioning

Our technical team supports clients through end-to-end setup and commissioning:

- Equipment installation and Factory setup
- Equipment testing and Calibration
- Operational readiness and Maintenance planning
- Production optimization

4. Technical Operator Training

Purchasing machinery is only the beginning. Kenya Coffee School ensures operators gain the knowledge and practical skills to maximize equipment performance.

Training Covers: Machine operation, Safety procedures, Preventive maintenance, Troubleshooting, Production workflow, Quality control, Equipment cleaning, and Performance monitoring.

Delivery Locations: Client premises, Coffee factories, Cooperatives, or Kenya Coffee School training centres.

5. Coffee Quality Management

Comprehensive quality services including: Coffee grading, Moisture testing, Defect analysis, Green coffee evaluation, Sensory analysis, Quality assurance systems, Traceability implementation, and Processing improvement.

6. Consultancy Services

Advisory solutions in Coffee factory establishment, Processing plant design, Machinery selection, Value addition, Coffee export readiness, Business planning, Feasibility studies, and Market development.

OUR CLIENTS

We proudly serve stakeholders across the entire coffee ecosystem:

Coffee Farmers	Coffee Cooperatives	Coffee Societies
Coffee Estates	Coffee Exporters	Coffee Processors
Coffee Traders	Government Institutions	NGOs
Universities	Investors	Youth Groups & Women Enterprises

WHY CHOOSE KENYA COFFEE SCHOOL?

- **Practical hands-on training** led by industry-experienced trainers.
- **End-to-end expertise:** Machinery sourcing, technical installation, and after-sales operator training.
- **Comprehensive solutions:** Modern coffee technologies, quality management, and value chain development.
- **Extensive networks:** Strong national and international industry partnerships.

Our Integrated Approach

We combine **Education, Technology, Machinery, Innovation, Sustainability, and Business Development** to deliver complete coffee industry solutions from *Farm to Factory, Factory to Market, and Seed to Cup*.

Our Commitment

Every machinery supply project includes an emphasis on operator competence, safety, maintenance, and quality management to ensure long-term productivity and return on investment.
